INTRODUCING OUR ANTI-THEFT, LOSS PREVENTION, REMOTE CONTROLLED LOCKABLE DOOR SYSTEM.

Our secure, lockable doors minimise loss and maximise your ROI in a challenging economic climate.

Our remote lockable door systems are redefining how businesses protect their stock, without sacrificing style or performance. We have designed a product with easy remote locking and real-time control to protect your profits.

Our remote lockable door system insert is also available in ambient-dry configurations purpose-built for non-refrigerated display of high-value stock such as beverages, confectionery, tobacco, and health products. It offers you complete stock protection across your entire display, hot or cold.

- ✓ Lock and unlock your fridge doors instantly
- ✓ Built on the industry-leading MASLEN glass door insert, you stay in control of your stock around the clock
- ✓ Manufactured in 1 door to 8 door continuous framing

SOLVING THE CHALLENGES THAT COST YOU MONEY.

In busy hospitality and retail environments, an unsecured display or cold room is an open invitation for shrinkage, waste, and lost revenue. Our remote lockable doors are engineered to tackle the real-world problems operators face every day:

- Stock theft & shrinkage
- Unauthorised access
- Product integrity
- Energy inefficiency
- Poor product visibility
- One-size-fits-all limitations

SMART LOCKING. SMARTER OPERATIONS.

Our integrated remote locking system takes security to the next level, giving hospitality and retail operators centralised control without the complexity of traditional locking solutions.

INSTALLED QUICKLY.

Every unit arrives fully factory-assembled and pre-wired, meaning there is no extra complex on-site electrical work.

For busy operators who can't afford downtime, our lockable fridge system is the low-hassle, high-security solution that gets you up and running fast.

- ✓ **Factory assembled:** Every component is fitted, tested, and ready to go before it leaves our facility
- ✓ **Minimal disruption:** Your business operates as normal upon installation
- ✓ **Scalable across sites:** Whether you're fitting out one venue or an entire chain, the system deploys quickly and consistently every time

REMOTE CONTROLLED, RELIABLE AND SCALABLE.

Our product is a robust, purpose-built locking mechanism designed specifically for the demands of commercial refrigeration safety.

Advanced Refrigeration Technology product inclusions:

- ✓ Built on the MASLEN glass door insert
- ✓ Manufactured in 1 door to 8 door continuous framing
- ✓ Includes LED vertical lighting, 2 built-in LED strips per door
